

20/20 Custom Molded Plastics, LLC

Press Release
April 21, 2022

20/20 Custom Molded Plastics Will Expand Operations in Covington, Georgia

20/20 Custom Molded Plastics, a custom structural foam manufacturer founded in 1999, currently has two locations in Holiday City, Ohio (corporate offices) and Bluffton, Indiana. Combined, these facilities employ more than 500 people.

20/20 Custom Molded Plastics state-of-the-art facilities use the low-pressure injection molding process, to produce products such as pallets, carts, in-ground enclosures, pool panels, floating dock systems, burial vaults, and window wells for companies in the logistics, home and garden, consumer products, construction and leisure industries.

We are excited to announce we are expanding operations to the current Vantage Products building located at 960 Almon Road, Covington, Georgia. With plans to invest \$7,000,000 at this location with the creation of 100 new jobs within the next two years.

The operational start-up is planned for April 25, 2022. This will include two 2500-ton presses and a 300-ton press.

Ron Ernsberger, President states, "Our plants in Holiday City and Bluffton are world class facilities and we plan to transform the Covington site into the same type of facility."

Lisa Barlow, former Vice President of Vantage Products, has been hired to manage the 20/20 Custom Molded Plastics Covington location.

The company will be hiring for numerous positions including press operators, mold technicians, maintenance, quality auditors, and supervisors. 20/20 Custom Molded Plastics is excited about the opportunity to grow their business in Covington, Georgia!
